The United States Coast Guard Navigation Information Service (NIS)

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS, DGPS, and LORAN-C. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center website http://www.navcen.uscg.gov/gps/status/default.htm. In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS or LORAN service. Mariners are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900, Email: webmaster@smtp.navcen.uscg.mil, or on the World Wide Web at: http://www.navcen.uscg.gov.

REPORTING OF SUSPICIOUS ACTIVITY SUSPICIOUS ACTIVITY

The Department Of Homeland Security (DHS) encourages the maritime public to report information concerning suspicious activity to their local Federal Bureau of Investigation (FBI) Joint Terrorism Task Force (JTTF) Office, http://www.fbi.gov/contact/fo/fo.htm, or to other appropriate authorities. Individuals can contact the DHS Watch and Warning Unit at (202) 323-3205, toll free at 1-888-585-9078, or by e-mail to nipc.watch@fbi.gov. For suspicious activity at ports, marinas, boat yards, bridges and other waterfront areas, the U. S. Coast Guard asks the maritime industry to support Operation "On Guard" by calling the National Response Center (NRC) at 1-877-24-WATCH or your local Marine Safety Office.

SAFETY ADVISORY - MARINE TELEVISION ANTENNAE INTERFERENCE WITH GPS

This safety advisory applies to the Coast Guard cutter fleet and boat forces community and is provided for informational purposes only. It has come to the attention of the Coast Guard and Federal Communications Commission (FCC) that certain consumer electronics-grade active VHF/UHF marine television antennas are causing operational degradation in the performance of global positioning system (GPS) receivers. This interference may be realized as a display of inaccurate position information or a complete loss of GPS receiver acquisition and tracking ability.

The interference is not limited to the GPS equipment onboard the vessel with the installed active marine television antennae. There have been reports of interference occurring on other vessels and installations operating up to 2000 feet away from vessels using such antennas. In one particular case, the interference caused the position of the vessel as displayed on the electronic chart to move erratically and dramatically often across large expanses of land. As can be expected, various data displays indicated erroneous information such as excessive speeds. In these instances the problem would occasionally correct itself while at other times required resetting the system. To the vessel's crew these annoyances were frustrating and caused concerns that perhaps less obvious inaccuracies were occurring. Ultimately this affected their confidence in the performance of the GPS and electronic chart display and information system.

The FCC identified the following models of marine television antennas as having potential problems during the investigation of GPS interference: A. TDP (Tandy Distribution Products) Electronics - Mini State Electronic amplified UHF/VHF TV ANTENNA - MODELS 5MS740, 5MS750, AND 5MS921.

- B. Radio Shack Corporation Long Range Amplified Omni Directional TV Antenna Model 15-1624.
- C. Shakespeare Corporation Seawatch Models 2040/Code Date 02A00, 2050/Code Date 03A00 (Code dates are found on the antenna power supply). The GPS interference problem may not be limited to the marine television models listed above.
- 4. If mariners experience outages or degradation of their GPS receiver operation,

they should perform an on-off test of their marine television antennae. If turning off the power to the marine television antenna results in improvement in the GPS receiver performance, the marine television antenna may be the source of interference in the GPS band. In that case, the mariner should contact the manufacturer of the marine television antenna and identify the symptoms. If turning off the marine television antennae does not improve the GPS receiver performance or if mariners identify another marine television antenna (not listed above) with a GPS interference problem, mariners have been requested to contact the 24-hour Coast Guard Navigation Information Service At 703-313-5900 Or Email to NISWS@NAVCEN.USCG.MIL.

5. Questions or comments related to this information may be addressed to Mr. William Cairns (G-SCT-2) at 202-267-6599 / Email to WCAIRNS@COMDT.USCG.MIL or LCDR Kathryn L. Oakley (G-WKS-4) at 202-267-2965 / Email to KOAKLEY@COMDT.USCG.MIL.

OPERATION "ON GUARD"

U. S. Coast Guard Marine Safety Office Miami announces Operation "ON GUARD". This operation is designed to employ Coast Guard - active duty, reserve and auxiliary, Federal Bureau of Investigation, US Customs Service, US Immigration and Naturalization Service and the Florida Department of Law Enforcement personnel in response to suspected terrorist activity at the waterfront facilities of the United States. South Florida is extremely vulnerable because it is the terminus of illegal alien and narcotics smuggling routes from the Bahamas, the Caribbean and South America. These routes are well established and are readily available for use by terrorist organizations. An urgent need existed to make the American Public equal partners in the fight on terrorism. Operation "ON GUARD" creates an effective deterrent measure that employs the eyes and ears of the marine industry and the boating public, people that know every inch of the coastline because it is where they work and play. Potential terrorists are put on notice that their activities will be seen and reported.

Operation "ON GUARD" takes a two pronged approach consisting of face to face visits by Coast Guard, FBI, USCS, INS and FDLE personnel combined with a coordinated joint agency media campaign to reach Marina Operators, Marine Dealers, Bridge Tenders, Commercial Fishermen, and the Boating Public. This operation relies on Coast Guard Auxiliary programs already in place like the "Clean Marina" program, Vessel Safety Checks, Marine Dealer Visits and the Commercial Fishing Vessel Safety Program to reach their normal customers, the waterfront users. The public is provided with the toll free number (1.800.424.8802) for reporting suspected terrorist activity to the National Response Center and the 1.800.BE ALERT number for US Customs along with a list of reporting criteria.

Report:

- Suspicious persons conducting unusual activities
- Individuals establishing businesses or roadside food stands in proximity to marina or bridge
- Unknown persons photographing or creating diagrams
- Unknown or suspicious persons loitering for extended periods of time
- Unknown or suspicious persons renting watercraft

· Suspicious venders attempting to sell/deliver merchandise or drop off packages

COAST GUARD SECURITY ZONE

The Captain of the Port of Charleston, SC, has established a temporary security zone for the waters under the Don Holte I-526 Bridges over the Cooper River to Lighted Buoy 73 (LLNR 3050) until further notice. In the interest of national security, all vessels are prohibited from entering, transiting, anchoring, mooring or loitering within this zone, unless specifically authorized by the Captain of the Port. Mariners should contact the lead Coast Guard vessel on VHF Channel 16 for safety and maneuvering information when operating in the vicinity of this zone.

NAVAL PROTECTION ZONES

The U. S. Coast Guard has established protection zones around U. S. Naval vessels within U. S. navigable waters. Naval vessels protection zones are established within 100 yards of any U. S. Naval vessel. This includes any vessel owned, operated, chartered, or leased by the U. S. Navy or under the operational control of the U. S. Navy. Vessels within 500 yards of a U. S. Naval vessel shall operate at the minimum speed necessary to maintain a safe course and proceed as directed by the official patrol. Mariners may contact the U. S. Coast Guard on VHF Channel 16 regarding this message.

PORT AND WATERWAY INFORMATION LINE ACTIVATED

A Coast Guard toll-free hotline line is now available to provide both commercial and recreational mariners with the latest, up-to-date information on local waterways and ports openings, closures and restrictions. The Maritime Safety Line, 1-800-682-1796, has information from over 30 Coast Guard Captains of the Port from the Mississippi River to the Atlantic Ocean. Puerto Rico has its own information line at (787) 706-2415 with information on 22 ports.

II. DISCREPANCIES-DISCREPANCIES CORRECTED

This section lists all discrepancies to Aids to Navigation reported since the last monthly published list. A discrepancy is a change in the status of an aid to navigation that differs from what is published and or charted. **Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity. Mariners should proceed with caution.**

IV. CHART CORRECTIONS

(Explanation of Format)

Corrective action, affecting charts, is contained in this section. Chart corrections are listed numerically by chart number, beginning with the lowest and progressing through all charts affected. The correction listed pertains to that chart only. It is up to the mariner to decide which charts are to be corrected. The following example explains the individual elements of a typical correction.

Chart	Chart		ast Local Notice		ference	Source of	Current Notice
numbe	r edition	date	to Mariners	•	datum	correction	to Mariners

The letter (M) immediately following the chart number indicates that the correction should be applied to the metric side of the chart only. (TEMP) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (m). (*) Asterisk is used to identify Private Aids

B. DRAWBRIDGE STATUS SUMMARY

The following is a list of known drawbridge discrepancies, restrictions, and closures in navigable waters of the Seventh Coast Guard District.

Additional information regarding bridges can be found in Volume 4 (Cape Henry to Key West) or volume 5 (Gulf of Mexico, Puerto Rico and Virgin Islands) of the U.S. Coast Pilot, 33 CFR 117, or by calling (305) 415-6730. Unless otherwise noted in the date column, the described status will be in effect until further notice. Mariners knowing of bridge activities not listed below are urged to notify the nearest Coast Guard unit.

C. BRIDGE INFORMATION.

FLORIDA - AICW - INDIAN RIVER: Special Bridge Notice.

The Coast Guard has issued a public notice regarding the permit application from the Florida Department of Transportation, District Five for approval of location and plans to construct a dual structure, four-lane fixed highway bridges on State Road 528 across the Indian River, mile 894.0 at Cocoa, Brevard County, Florida. This notice that solicits public comments through May 19, 2003, has been mailed to Local Notice to Mariners subscribers with zip codes 32922 through 32952. Copies are available by writing to the address on the cover of this notice or by calling Miss Evelyn Smart at (305) 415-6753. Ask for a copy of Public Notice 3-02.

FLORIDA – INTRACOASTAL WATERWAY – WEST PALM BEACH TO MIAMI – PALM BEACH COUNTY: <u>Test Drawbridge Operation</u> Regulations.

Page 15 of 19 Seventh Coast Guard District The Commander, Seventh Coast Guard District, has approved a temporary deviation from the regulations governing the operation of most of the Palm Beach County bridges across the Atlantic Intracoastal Waterway, Palm Beach County, Florida. This temporary deviation allows the Coast Guard to test an operating schedule with the bridges opening twice an hour with a one hour closure period in the morning and afternoon. It will allow the Coast Guard to gather data to determine if this schedule meets the reasonable needs of navigation while accommodating an increase in vehicle traffic throughout the county and whether it should be proposed as a permanent change.

The following bridges need not open between 8 a.m. and 9 a.m. and from 5 p.m. to 6 p.m. Monday through Friday, except Federal holidays. And will operated at all other times on the schedules as follows:

During the deviation period, from 6 a.m. on March 17, 2003 until 8 p.m. on June 15, 2003, the bridges will operate as follows:

Open on Signal Lake Avenue, mile 1028.8 Woolbrlght Road, mile 1038.8

Open on the hour and half hour

Indiantown Road, mile 1006.2 Donald Ross, mile 1009.3 PGA Boulevard, mile 1012.6 Royal Park (SR 704), mile 1022.6

Southern Boulevard (SR 700/80), mile 1024.7 Ocean Avenue (Lantana), mile 1031.1 Ocean Avenue (Boynton Beach), mile 1035.0 N.E. 8th Street (George Bush), mile 1038.7

Spanish River, mile 1044.9 Palmetto Park, mile 1047.5

Open on the quarter hour and three-quarter hour

Parker (US 1), mile 1013.7

Flagler Memorial (SR A1A), mile 1021.9 Atlantic Avenue (SR 806), mile 1039.6 Linton Boulevard, mile 1041.1 Boca Club, Camino Real, mile 1048.2

This test deviation does not affect the Jupiter Lighthouse bridge, mile 1004.1, and the Jupiter Federal bridge, mile 1004.8, which will continue to open on signal, as these areas have been determined to be unsafe for vessels to hold while waiting for a bridge opening.

The Coast Guard will be collecting data during this test and requests that all comments be directed to Commander, Seventh Coast Guard District (obr), Brickell Plaza Federal Building, 909 SE 1st Avenue, Room 432, Miami, FL 33131-3050

If at any time during this test deviation it is determined that the test schedule poses any safety concerns at any location, this test deviation may be withdrawn.

FLORIDA - INTRACOASTAL WATERWAY - WEST PALM BEACH TO MIAMI - SHERIDAN STREET: Bridge Repairs.

The Coast Guard is temporarily changing the regulations governing the operation of the Sheridan Street Bridge, mile 1070.5, Hollywood, Broward County, Florida until September 25, 2003. The Sheridan Street Bridge shall open a single-leaf only on the hour, 20 minutes after the hour and 40 minutes after the hour. Ad double leaf opening will be available if two hours advance notice is provided to the bridge tender. Only a single leaf will be available from 12:01 a.m. on May 7 to 6:00 p.m. on May 9, 2003, and from 12:01 a.m. on May 14 to 6:00 p.m. on May 16, 2003, and from 12:01 a.m. on June 5 until 6:00 p.m. on July 3, 2003.

F. MISCELLANEOUS INFORMATION

GEORGIA - ST SIMONS SOUND: Changes in Aids to Navigation.

Recently reconstructed <u>Cedar Hammock Outboard Range (LLNR 6205/6210)</u> does not mark the centerline of the channel. As built the range line is to the south of center. A temporary lighted buoy "23" displaying Quick Flash Green characteristic has been established in position 31-06-12.494N/081-27-07.797W to mark the channel limits and apex of the turn.
